

PRESS RELEASE

CAMTEL and Ethio Telecom Seal Strategic Partnership to Speed Up Cameroon's Digital Transformation

Yaounde, 2 December 2025: Cameroon Telecommunications (CAMTEL) hereby announces the official visit, on 3 and 4 December 2025, of a high-level delegation from Ethio Telecom, the Ethiopian public operator, for the signing of a Master Service Agreement (MSA) between the two companies.

This three-year partnership aims to strengthen South-South cooperation between two African, State-owned operators and speed up Cameroon's digital transformation, focusing on four main areas:

- the development of the Blue Money electronic payment service;
- support for the digitisation of public services and the establishment of a sovereign Government Cloud;
- the modernisation of networks (4G, 5G, and innovative solutions);
- support for CAMTEL's internal transformation (organisation, information systems, customer culture).

During their stay in Yaounde, the Ethio Telecom representatives will take part in: a warm, formal welcome ceremony; working sessions with CAMTEL's technical, commercial and senior management teams; the official signing ceremony of the Master Service Agreement; meetings with public authorities; visit to CAMTEL's strategic infrastructure, including the Zamengoe Datacentre, and network supervision facilities.

This Master Service Agreement also provides for expert missions, training and mentoring sessions, as well as cross-immersion between CAMTEL and Ethio Telecom teams to promote sustainable skills transfer.
